WARRANT.

The State of New Hampshire.

*To the Inhabitants of the Town of Plymouth, in the
County of Grafton, in said State, qualified to vote in
Town Affairs:*

You are hereby notified to meet at the Town Hall in said Plymouth, on Tuesday, the thirteenth day of March next, at nine thirty of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To see what sum of money the town will vote to raise or appropriate, in addition to that required by law, for the support and maintenance of the Free Public Library.

4. To raise such sums of money as may be necessary for the repair of highways.

5. To see what sum of money the town will vote to raise or appropriate, in addition to that required by an Act of the Legislature approved February 24, 1905, to be used for the permanent improvement of its main highways, such improvement to be made under the advice of the State Engineer.

6. To see what sum of money the town will vote to raise or appropriate to pay firemen.

7. To see what sum of money the town will vote to raise or appropriate for the decoration of soldiers' graves.

8. To see if the town will vote to authorize the selectmen to borrow money to pay the debts of the town and give notes therefor, countersigned by the Town Treasurer, the said notes to be exempt from taxation.

9. To choose the Library Trustee for a term of three years.

10. To see what sum of money the town will vote to raise or appropriate to pay Keniston Band for open air concerts during the summer of 1917.

11. To see what action the town will take in regard to oiling the streets.

12. To see what sum of money the town will vote to raise for sidewalks.

13. To see what sum of money the town will raise for the repair of bridges.

14. To choose a Trustee for a term of three years to have the care of trust property.

15. To see if the Town will vote to exempt from taxation for a term not exceeding ten years from the date of beginning construction, a lumber manufacturing establishment, including buildings and machinery, proposed to be erected by the Woodstock Lumber Co., its successors or assigns, provided said establishment shall have the capacity for sawing at least ten million board feet of lumber per year, and shall have commenced operations on or before October 1, 1918; and to see what other action the town will take in refer-

ence to exempting the Woodstock Lumber Co., from taxation, if any.

16. To see if the town will vote to accept the one thousand dollar bequest made by Helen M. Clark to the Public Library of Plymouth, and authorize its Public Library Trustees to receive and receipt for the same.

17. To see if the town will vote to authorize the Selectmen to change or modify the contract with the Plymouth Electric Light Company for lighting the streets.

18. To see if the town will vote to discontinue the highway laid out for winter use on the 28th day of December, 1899, described as follows: Commencing at spotted white birch tree in the south side of highway leading from Allen Moulton's residence, past residence of Otis Draper, past spotted white maple on land of Nutting heirs; continuing in a southwesterly direction, past spotted white birch tree on land of said Nutting heirs, passing across field of said heirs, to spotted white maple; passing spotted hemlock on land of T. Rogers to spotted yellow birch on land of said Rogers; crossing land of Mrs. Sarah J. Alexander to a stake opposite a birch tree marked Fred Hall; the same being on the northerly side of a winter road previously laid out over the premises of Herman L. Sargent.

19. To see what action, if any, the town will take with reference to extending the street electric light service to Campton line on Livermore Falls road.

20. To see what action, if any, the town will take towards further safeguarding Baker's River bridge.

21. To see what action the town will take in

reference to having a survey of all the streets made, bounds set, plans drawn, and a copy of the surveys, plans and notes to be placed on file in the Selectmen's room.

22. To see if the town will vote to purchase the real estate, with the building thereon, owned by Prentiss H. Crawford, formerly occupied as a blacksmith shop; and, if so, to see if the town will vote to raise or appropriate money for the same; and to take such other action as may be necessary in relation thereto.

Given under our hands and seal this twenty-fourth day of February, in the year of our Lord nineteen hundred and seventeen.

REPORT OF TRUSTEES OF TRUST FUND.

In accordance with Chapter 162, Laws of 1915 for the administration and disposition of Trust Funds, held in trust by bequest or otherwise for the care of cemeteries, any private lot therein, or for any fund held in trust for any purpose provided for in said act, your Board of Trustees having qualified by filing a suitable bond, entered upon their duties and submit the following report:

The principal of trust funds amounts, at the close of the year, to \$3,301.99. Income accrued prior to current year, \$266.26; income accruing during current year, \$102.47. From current income we have expended on care of lots, \$29.50, the balance being carried to surplus income which stands at the close of the year at \$339.23.

It has been the aim of your Board to properly care for and beautify lots and cemeteries as by bequests directed and this has been done except in the case of Pleasant Valley cemetery. This is in charge of a board of directors, and it has seemed better that any expenditure of funds should be made under their direction. The said directors have been advised of the funds at their disposal and pending some action on their part the funds belonging to Pleasant Valley are being allowed to accumulate. Detailed statement follows.

Respectfully submitted,

CHARLES J. GOULD,
BENJAMIN F. ST. CLAIR,
FRED P. WEEKS,

Trustees.

REPORT OF SCHOOL BOARD.

The year which came to a close on the fifteenth of the present month found your schools fully up to the high standard required by Plymouth. This excellence is in large measure due to the good fortune of the District in securing teachers who were well qualified, faithful, loyal, and devoted to their work. This is true of every school in the District, and your Board desires to express its appreciation of this fact.

At the last annual meeting authority was given the Board to modify the contract with the Normal school relative to student teaching. Under the contract as modified the student teaching is not crowded into the last half of the year; and by giving each teacher a longer service and consequent time to get a better idea of the personalities of each pupil, better results are being obtained.

Relations with the Normal school have continued to be harmonious during the year.

The Domestic Science course of the High school is now in its second year. Good work is being done in this course although the number taking it continues to be small. This is really a valuable course and we wish our young people could realize that any one completing the course will, in addition to acquiring some of the practical arts of homemaking, be entitled to be called a well educated person.

The voters of the District are reminded that when the new High school building was built space was provided for a course in Agriculture. Your Board has not felt there was sufficient demand to inaugurate the course but it can be done at such time as the Board is

advised of a sufficient number of pupils desiring to take the course.

The High school has a total enrollment of 154 students, of whom 55 come from other towns. The standing of the school as indicated by this should be gratifying to the district.

Parents both in the village and outside districts have evinced a more active interest in school matters during the year and this has contributed to the success of the schools. We cannot too strongly urge every father and mother to give a little of their time to working with the teachers of their children. It will bring good results.

In the Sargent district the school grounds have been improved. This school has for several years been closed but it seems probable that in the near future a teacher must be provided for the scholars in this section of the district.

The large attendance at Ward's Hill school, if continued, will require the attention of the Board. (Either another room added or some other way provided to care for the large number of scholars attending the school.) During the present year arrangement was made whereby the Normal school provided an assistant to the teacher in this school. These assistants have been carefully selected, are allowed to serve for many weeks, and the results have been very satisfactory. In the near future much should be done to this school house. The seats are old, many of them unfit for further use; the heating is unsatisfactory and a general overhauling of the building should be made.

The recommendation below for the appropriation for support of schools in addition to the amount required by law has been made in detail. In our judgment the several amounts are approximately correct but it

may be necessary to transfer unexpended balances of any items to meet deficiencies in others. We believe the total amount is sufficient.

We recommend that the district raise the following sums in addition to the amount required by law:

For salaries,	\$1,443 00
Flags and staffs,	10 00
Transportation of scholars,	150 00
Repairs,	350 00
Janitor service,	675 00
Insurance,	350 00
Text books and supplies,	1,000 00
Fuel,	900 00
Lights and water,	110 00
Miscellaneous,	675 00
Payment of debt,	3,500 00
Payment of interest,	2,837 00
<hr/>	
A total of	\$12,000 00

Respectfully submitted,
FRED P. WEEKS,
JOHN KENISTON,
WALTER M. FLINT,

School Board.

WATER COMMISSIONERS' REPORT.

During the past year a pump has been installed at the artesian well. It was run continuously, night and day, for twenty-one days, delivering ninety gallons of water a minute without a break in the flow of water. We feel confident that the full capacity of the well has not yet been reached. When the pump was working it was able to maintain, and at times increase, the supply in the reservoirs. We have had many analyses of the water made, taken both as it flows into the reservoir and at faucets on the street, and each report has been good in every respect. The extension of new pipes to several houses, which we have included under the head of maintenance expense, and the repairing of six expensive breaks in the main pipe explain largely our increased maintenance account. The Board recommends, as soon as possible, laying about four hundred feet of six-inch pipe from Main street down Bridge street, and on the highway leading to the electric light plant, to a point where all homes can be properly supplied, and a hydrant located at an efficient place. The water commissioners, under authority given through the "courtesy" of the fire wardens, have put in at the Five Points, 340 feet of six-inch sewer pipe running from the river across the street to the Champou property. They recommend that the sewer be extended in the rear of the houses located on right hand side going North, crossing the road again at a point between the Pebbles and Morse houses, so that all parties may enter the main sewer. A sewer has been put in, beginning at corner of Broadway and Pleasant streets, running down Pleasant for about 800

feet. The size of the pipe for the first 300 feet is six inches; the last 500 feet is eight inches. At the corner of Avery and Pleasant streets a six-inch pipe was extended down Avery for about 100 feet. It seems to the Board the best policy to keep the sewers in the highway. It was found on laying the pipe that there was about 250 feet of solid ledge, being from three to twelve feet deep, which greatly increased the cost of construction.

Respectfully submitted,

GEORGE H. BOWLES,

WM. M. PEPPARD,

RICHARD J. McLEAN,

Water Commissioners.
